Spring is just around the corner—and so is the annual time change. On **Sunday, March 8, 2026**, we'll “spring forward” as **Daylight Saving Time** begins. That means clocks move ahead **one hour** at 2:00 a.m., giving us brighter evenings and a little extra daylight to enjoy after work or school.

While losing an hour of sleep can feel tough, the payoff comes quickly. Longer daylight hours mean more time for outdoor activities, evening walks, and soaking up the early signs of spring. Many people also find the added sunlight boosts mood and energy as winter fades.

To make the transition easier:

- Go to bed a little earlier the night before
- Get some sunlight on Sunday morning

Community Calendar Update What Does "\$\$" Mean?

You may notice something new on the bottom of our Community Calendar — a "**key**" explaining symbols used for our outings.

When you see "\$\$" next to an outing location, it means that the trip itself is **free to attend**, but participants may want to bring a small amount of spending money if they choose. For example, there may be a gift shop, snack stand, or small items available for purchase during the outing.

Bringing money is completely optional for these outings— no one is required to buy anything. The "\$\$" simply helps you plan ahead in case you'd like the option.

If you have any questions about a specific outing, please feel free to ask staff. We're happy to help!
